

Presentation of the theme "Time". (Tarm Skole, Karen)

Tuesday may 6th 2019.

In February, we worked on the theme Time in the 6th grade German classes.

The goal was to learn how to tell and say time in German and to read both digital and analog watches.

1. We made our own paper watches. (Everyone was given a watch and practiced)
2. Paper with different kind of watches. Find a couple and say the time.
3. I showed some posters with the seasons on.
4. We saw a video from where the German classes played the dodgeball, When you are dead, you need to go to your teacher. She will show you a watch, and you have to answer her what time is.
